MBE - Minority Small Business Enterprise

DBE- Disadvantaged Business Enterprise

PACA Perishable Agricultural Commodities

SUMMARY

Local at Large Volume

Share Farms mission is to improve small farm distribution, agronomic practices, quality and food safety management to bring farm to fork to the procurement level.

Share Farm was founded to help connect small farms and Minority farmers to a larger market using an inclusive, digital supply chain and existing distribution infrastructure to create a dynamic digital marketplace and expand local offerings.

COMPETITIVE DIFFERENTIATORS

Mission & Technology

Our Platform

Share Farm's technology-driven procurement platform aggregates large orders from in-State, small/minority farms. Our digital tools allow for food sourcing for high volume, aggregate procurement while improving agronomic practices, quality and food safety management at the farm level.

- Local, sustainable, large volume sourcing
- Prioritizing local, small, and minority-owned farms
- Forecasted supply and demand predictions

Additional Services

Share Farm also goes above and beyond to offer the following emergency food box, making food more useful and accessible to end users.

- Recipe-driven, culturally appropriate emergency food boxes
- Last mile delivery, direct to the end user
- Hub and Pod capabilities for rural, food-insecure locations
